

# SUPERLOX

**ONE UNIVERSAL ADHESIVE FOR ALL MATERIALS**

## LOXEAL SUPERLOX bonds:

- Polypropylene (PP)
- Polyethylene (PE)
- HDPE, LDPE
- PTFE
- Plexiglass (PMMA)
- ABS and PVC
- Metals, wood, leather

## BENEFITS

- The easy-to-use 2K 25 ml syringe, with static mixer, allows you to apply the product without using specific tools.
- Perfect for occasional use, keep it in your tool bag.
- Multi-surface: it bonds a variety of materials, among them difficult to bond plastics such as PP, PE, PTFE and PMMA.
- SUPERLOX is transparent and suitable to bond transparent materials.
- Fixture time: around 10 minutes.

The counter top display includes 10 syringes with static mixer.
