

## Permanent lifting magnet **BHP** type

### 20.01

- For flat or cylindrical parts, rough or smooth surface
- 100 to 500 kg neodymium magnets
- Heavy duty on/off lever

- Mechanical safety system
- Robust and compact design
- No remanence
- No mechanical wear from abrasion
- Safety factor higher than 3:1

ART. #	Weight	Force plate	Force round	Mini thickness 100% force	Max. diameter	List	LIQUIDATION
20.01.250	20.1 lbs	550 lbs	275 lbs	1"	300 mm / 11.13/16"	\$1,447.81	<b>\$599</b>

## Cylindrical magnet with through hole **type VF 01**

### 90.01.100

- Ferrite magnet
- Heavy duty and effective construction
- Zinc plated encloser
- Weight: 1.5 lb
- Force: 680N

List	LIQUIDATION
\$70.09	<b>\$35</b>
