JEPSON POWER®
Leading Through Innovation GERMANY since 1984

LBS saw blades Impact resistant

Ideal for cordless hand saws from 5-3/8" to 10". Ideal for cutting metal grids and grates, trapezoidal sheets, metal profiles, conduits, shutter pipes and much more. With a kerf of .04" to .06" (1 - 1,5 mm) LBS saw blades are much thinner than conventional saw blades. Therefore cutting with LBS saw blades saves material and time.
