HSS-XE steel

Made of high-alloyed special steel "XE" for considerably longer service life than HSS-Steel.

- Stainless steel V2A
- Steel
- Cast iron
- Non ferrous material

HSS-XE steel + BLUE-TEC coating

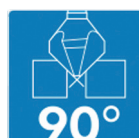

Made of high-alloyed special steel "XE" with BLUE-TEC coating for a substantial increase in service life also when machining dry (no/little cooling).

- High-alloyed chromium steel such as stainless (V2A / V4A)
- Acid resistant steel
- Steel
- Cast iron
- Non ferrous material

Silicone-free, Chlorine-free universal cutting paste

The paste adheres to the tool. No dripping or splashing. Ideal for working in awkward positions such as «working at heights» and on machines without cooling equipment.

Significantly increases the service life and surface quality when sawing, milling, tapping, grinding, drilling.

For cutting all steels and the most difficult materials such as titanium, manganese, cast iron, chromium-nickel or molybdenum steels.

Also excellent for all non-ferrous metals such as aluminium, copper, brass.
