Silicone-free, Chlorine-free universal cutting paste

The paste adheres to the tool. No dripping or splashing. Ideal for working in awkward positions such as «working at heights» and on machines without cooling equipment.

Significantly increases the service life and surface quality when sawing, milling, tapping, grinding, drilling.

For cutting all steels and the most difficult materials such as titanium, manganese, cast iron, chromium-nickel or molybdenum steels.

Also excellent for all non-ferrous metals such as aluminium, copper, brass.
